

Half pyramid

```
*  
* *  
* * *  
* * * *  
* * * * *  
* * * * * *
```

Program:

```
#include <stdio.h>  
int main()  
{  
int i, j,n;  
scanf("%d",&n);  
for(i = 0; i < n; i++)  
{  
for(j = 0; j <= i; j++)  
{  
printf(" *");  
}  
printf("\n");  
}  
return 0;  
}
```
